Edit Availability

Basic Course:

The system displays Edit Availability Page. The staff member clicks on the date that he/she wants to adjust the available hours for and enters new available hours. The system verifies the hours are valid and do not interfere with an event. The system displays the edit availability page and invokes the Check Availability.

Alternate Course:

Hours outside gyms hours: The system displays "These are not valid hours" on error page and displays Edit Availability Page again.

Hours interfere with a scheduled event: The system displays "There is an event that interferes with these hours" on error page and displays Edit Availability Page again.
